Welcome to Palkar's Home & enjoy your best second phase of your life...

Palkar's Home for Senior Citizens was established by the Palkar Foundation Trust and is managed by Mr. Vijay Bhalchandra Palkar, Mrs. Bharati Vijay Palkar, Mr. Rahul Vijay Palkar, and Mr. Atul Vijay Palkar at Devrukh. The aim of Home is to provide a facility to take care of senior citizens. With time, a string of physical and mental afflictions would have caught up with them. In some cases, this might even hinder them from doing their routine tasks.

They might require special care and attention, which many family members may not be in a position to give. Further, due to the occupational obligations of others in the family, the elderly tend to be left alone at home.

At Palkar's Home for Senior Citizens, the intention is to provide the elderly with a life of comfort and peace, after a life of hard work and responsibilities. It is a place where the elderly can live life with self-respect, dignity, and the confidence that comes from being independent. Here, one can live life in complete freedom in a secure environment, with all needs taken care of.

The campus has all the necessary infrastructure needed for the special needs that accompany advancing age. Our endeavor is to deliver highly professional care to the highest standard, which is tailor made to meet the individual resident's medical, social, and spiritual needs.

What Makes Palkar's Home for Senior Citizen Different from others

A lot of thought has gone into the design of the rooms at Palkar's Home. All rooms are spacious and designed to high standards; they are fully furnished, and bathrooms are also designed with the elderly in mind, among other things.

There are also lounge areas within Palkar's Home, where one can relax, listen to music, read books, or participate in daily and weekly events that will be organized by the Palkar's Home management.

We also have a canteen where the residents can enjoy their meal, tea, coffee, snacks, etc. at their leisure. We are building a temple in the surrounding area for the residents. Well-planned activities, specifically designed to rejuvenate the mind of the elderly in the most engaging way possible with like-minded people.

We are surrounded by greenery, where the residents can enjoy nature to the fullest. We have opted for the rental model, where the residents do not need to think about long-term investments. We have maintained the variety of flexible rental plans.
